Reminder Bulletin for ALL TSA Employees—9/17/2019

Update Your Emergency Contact Information in eOPF

The electronic Official Personnel Folder (eOPF) allows employees to enter and maintain emergency contact information. This information will be used by Human Resources (HR) specialists if an employee experiences an emergency while at work or if there is a situation requiring that an employee be contacted or accounted for (e.g., verifying your health and safety after a natural disaster). It is important for employees to review their emergency contact information regularly to ensure that it is up-to-date, accurate, and complete.

Accessing Your eOPF

To access the eOPF website:

- Go to the HRAccess website at this link. Click Resources > eOPF

Viewing and Updating Emergency Contact Information

It is recommended that employees’ first emergency contact be someone who lives with or near the employee. A second contact may be someone who lives out of state and/or does not live with the employee.

Employees can add or change emergency contact information in eOPF by following the instructions below:

- Click the My Profile button on the left side of the screen.
- Click the Emergency Data button. Edit the desired field.
- Click the Apply button. The Emergency Contact information screen will then display the following message: “Emergency data updated successfully.”
